

Swapmania - Issue 2

This is the extra Swapmania booklet that will come along with DID in the future. The reason why this has been done, is that with other people including there stuff which they have for sale or want to swap away, it could get quite big, and take up many of the last pages in the Fanzine itself. I think that would be a shame and would spoil the look of the Fanzine. So, let's start with what DID got to swap away this time. There's a lot more titles than in the last issue. If you should be interested in swapping, send me a list of the games you have to give in return, with there condition, and I'll get back to you.

The swap library contains 199 entries.
